his is called "Foundation course", but it goes beyond what many in the market consider as foundation.
This **online course** has been running since mid-2016, with students from Asia, Europe, North America and Australia.
The techniques in the Foundation course will be applicable to many aspects of life.
You can call this **intermediate to advanced** level course, and it's pretty much a complete course.

Teaching mode : interactive discussion group in www.fivearts.org, with many case studies posted by students
Duration : 1 year and beyond. Discussion group remains open for you after this period.
Starting date : no specific date, you can join now.
Cost : **€ 850**. Please contact me for payment mode.

Here's an example of Bazi analysis with Mangpai, something that people didn't learn in traditional Bazi:
- Guess what serious illness she suffered at 37 years of age (MULTIPLE CHOICE)
- please Bazi analysis of wealth luck (in next 2 luck pillars)

I have another course called Mangpai Marriage Course, that covers all aspects of marriage (including divorce etc.).
There will be some concepts about the Marriage topic in the Foundation course, but not as detailed as in this other course.
More details on this other course in What is the Mangpai Marriage Course?

« **pada:** 24 Januari 2018, 12:03:58 siang »

Halo Master Jlim,

Apa itu kursus pernikahan mangpai? Apakah level selanjutnya dari foundation satu atau bisa diambil tanpa mengikuti kursus foundation terlebih dahulu?
Apakah materinya benar-benar baru dan tidak termasuk dalam kursus dasar?

Jika kita menjadi mahasiswa, berapa lama kita bisa mendapatkan akses ke grup diskusi?

Terima kasih banyak

SOME FEATURES OF MANGPAI BAZI THAT ARE DIFFERENT THAN TRADITIONAL BAZI
« **on:** January 02, 2018, 01:01:29 PM »

## SOME FEATURES OF MANGPAI BAZI THAT ARE DIFFERENT THAN TRADITIONAL BAZI

1 DM strength is used very little.
2 Determination of DM strength is not as complicated as in traditional
3 Rather than DM strength, work process is the central concept. When the chart performs work, it's auspicious for the chart owner.
4 Grading of the natal chart can be assessed quickly. Grading means what is the level of achievement of this person. In traditional, we have to go through Luck Pillars before we can say anything
5 Favorable elements are more detailed. For example, in traditional we say Metal is a favorable element, that's it. But in Mangpai, we distinguish between the favorability of Geng, Xin, Shen and You
6 Tomb Branches (Chen, Xu, Wei and Chou) can provide so much information that traditional overlooks
7 Images are more widely used than in traditional Bazi.
8 Clash, harm and punishment can also be auspicious for the chart owner, depending on the work performed.
9 The Six Families 六親 are defined in a better way. For example, Output (Shi Shen or Shang Guan) can function as the Spouse Star, not only Wealth (Cai). It depends on the chart configurations. Another example, Father Star is not always Wealth Star (Cai). This is what traditional practitioners get confused in analyzing a father when a chart has no Wealth.
10 Wealth can be represented by other Deities than the Wealth Star (Cai). Conversely, under a certain configuration, Wealth Star may not represent wealth (finances). This is the reason that sometimes we see wealthy people without Wealth Star, and poor people with Wealth Star.

BEBERAPA CIRI MANGPAI BAZI YANG BERBEDA DARI BAZI TRADISIONAL
« **pada:** 02 Januari 2018, 13:01:29 »

## BEBERAPA FITUR MANGPAI BAZI YANG BERBEDA DARI BAZI TRADISIONAL

1 Kekuatan DM yang digunakan sangat sedikit.
2 Penentuan kekuatan DM tidak serumit tradisional
3 Daripada kekuatan DM, proses kerja adalah konsep sentral. Saat bagan melakukan pekerjaan, itu menguntungkan bagi pemilik bagan.
4 Penilaian bagan kelahiran dapat dinilai dengan cepat. Grading berarti tingkat pencapaian

orang tersebut. Secara tradisional, kita harus melalui Pilar Keberuntungan sebelum kita dapat mengatakan apa pun

5 Elemen yang disukai lebih detail. Misalnya, secara tradisional kami mengatakan Logam adalah elemen yang disukai, itu saja. Namun di Mangpai, kami membedakan antara keunggulan Geng, Xin, Shen, dan Anda

6 Cabang Makam (Chen, Xu, Wei dan Chou) dapat memberikan begitu banyak informasi sehingga

7 Gambar tradisional lebih banyak digunakan daripada di Bazi tradisional.

8 Bentrok, celaka, dan hukuman juga bisa menguntungkan bagi pemilik bagan, tergantung pada pekerjaan yang dilakukan.

9 Enam Keluarga 六親 didefinisikan dengan cara yang lebih baik. Misalnya, Keluaran (Shi Shen atau Shang Guan) dapat berfungsi sebagai Bintang Pasangan, bukan hanya Kekayaan (Cai). Itu tergantung pada konfigurasi grafik. Contoh lain, Father Star tidak selalu Wealth Star (Cai). Inilah yang dibingungkan oleh praktisi tradisional dalam menganalisis seorang ayah ketika grafik tidak memiliki Kekayaan.

10 Kekayaan dapat diwakili oleh Dewa selain Bintang Kekayaan (Cai). Sebaliknya, dalam konfigurasi tertentu, Wealth Star mungkin tidak mewakili kekayaan (keuangan). Inilah alasan terkadang kita melihat orang kaya tanpa Wealth Star, dan orang miskin dengan Wealth Star.
